Come! here is relief

Dr. Scholl's
Zino-pads
Put one on—the pain is gone

For quick and lasting relief from corns, callouses, and bunions, there's nothing like Dr. Scholl's Zino-pads. Healing starts immediately, while the tender spot is protected against pressure and irritation. They are thin, adhesive, waterproof. Antiseptic treatment absolutely safe!

PAUL WERNER,

LOCAL NEWS

Mr and Mrs D Roberts left on Friday last for the East.

Mr J Messenger was down from Rutwistle over the weekend.

Mrs Dan Leeder has returned home after a 2 months visit with her daughters at Topeka, Kansas.

Mr C.W. McKenna, for the past few years a farmer in this district, left on Friday last for Chicago where he will reside.

Mr C W Ibsen of Duffield left Monday on an extended visit to Vancouver.

Mr Walter Sampson is spending a 2 weeks holiday in a near-by city.

A newspaper is being started in the town of Onoway.

Mr S Anderson left yesterday for Duffield, to contract for building a church there.

Mr Otto Wudel has arrived in Town from Wetaskiwin to take over his Implement business recently acquired from Mike Ducholke.

The new Inga Council will meet in Stony, tomorrow afternoon.

Mr J F Clarke has moved his residence to his new and commodious Chalet on the Boulevard, formerly owned by Joe Hennig.

Mr Chas Schultz has purchased the quarter section of land from M Ducholke S-E of town.

As yet nobody has been able to open the lock in the big Radio Contest at Millers. Someone must have the key; bring yours in and see.

Mr Faulke's new store building at Duffield has been completed and was dedicated yesterday evening with a picture show, concert and dance.

Madison Square Gardens has nothing on Stony for good bunts.

Mr Robert Winter of Heathcote is holding an Auction Sale on March 19, after which he will leave for Vancouver where he purposes to reside.

The Town Council met in the Town Hall last Thursday evening. One of the members resolved that he would have his life insured before attempting those steps again.

Remember the Foodon School in Ducholke's Hall on Wednesday, March 17.

The Agricultural Society met in the Town Hall on Saturday afternoon to discuss the prospects of holding a combined School and Agricultural Fair in Stony the coming summer. Something more definite will be given out after the Agricultural School which is held for here to-morrow and Saturday.

Tough—Ain't It!

After you have just made an engagement for about the time you think the roads will be dried up—it shows again.

Suppression Of Crime

In freedom from serious crime Canada enjoys a good name and reputation which is in striking contrast to that of its great neighbor, the United States. It is a name and reputation which Canadians should jealously guard and carefully refrain from policies and actions which would in the slightest degree lower the standard so long maintained in this Dominion. A word of warning is in order because signs are not lacking of a tendency to grow somewhat lax in the matter of law enforcement.

In the United States crime has become a national menace, and in many respects the law has broken down. So serious has the situation become that responsible officials and nation-wide organizations, including the legal profession, are alarmed, and are looking about for some effective means of checking the reign of lawlessness and violent criminal acts now recognized as a national disgrace as well as danger, and which places the United States in an unenviable class by itself among the nations of the world. The rising tide of crime is now admitted to be one of the United States' greatest problems.

A study of some of the causes of the condition now existing in the United States may be of value to Canadians in safeguarding themselves and their country from the development of a similar state of affairs here. But first let us consider a few figures.

In 1922, 3,500 persons were killed in crimes of violence in the United States. In 1923, the number was 10,000, and in 1924 it had risen to 11,000. Compare these figures with England and Wales. In 1923 there were 58 murders committed in all England and Wales, and 34 homicides other than murder, a total of 92 as compared with 229 that same year in Chicago alone and 10,000 in the United States. The population of England and Wales at that time was 33,000,000 and of Chicago slightly less than 3,000,000. London and New York have approximately the same population, but London had just 42 murders in 1923 as compared with New York's 263. In 1923 more than twelve times as many people were robbed in one United States city alone, Chicago, as in all the Dominion of Canada.

The difference between the British and Canadian judicial systems, with judges appointed for life, and the United States system of judges chosen by popular election, is one cause of weakness across the line. But the chief factor in the increase of crime in the United States is undoubtedly the lack of law enforcement. In many of the large U. S. cities crime has become a well organized business. Many lawyers clever, but utterly unscrupulous, make it their business to defend the criminal class. They can command big fees, and they take full advantage of every twist and turn in the law to get these law breakers off. Partisan elected judges, and politically chosen district attorneys, and a politically administered police force, cannot successfully cope with these lawyers, backed with unlimited resources from the criminal underworld.

Lack of law enforcement, and the abuse of the parole system, has resulted in the criminal class, holding the law and law officers in contempt. Punishment has few terrors for them, because in the majority of instances they are confident they can beat the law. And they do.

In Canada and Great Britain, criminals have a wholesome respect for the law. They know it will be enforced without fear or favor. But unfortunately, there has developed in late years a certain sickly sentimentality among people and some organizations for the criminal class. Those entrusted with the suppression of crime have sounded warnings, but many people think only of the criminal and not of the community, and nowadays hardly a murderer is sentenced to pay the penalty of his crime that petitions are not circulated asking for leniency. In view of the high character of Canadian judges, the people may well leave the administration of criminal law to them, especially as they are well possessed of facts unknown to the public at large.

A contributory factor to the rising tide of crime in the U. S. is the ease with which the criminal class, in fact, anybody, can obtain pistols and revolvers. With hardly an exception the cheaper magazines of the country carry scores of advertisements for the sale of pistols. They can be purchased cheaply and as easily as groceries. Yet a pistol has one use and one only—to be used by man against his fellow man, either in the hands of criminal, or by man in defense against a criminal. It is no longer used in war; it is not used in sport. Ninety per cent. of all murders in the U. S. are committed by the use of pistols, yet the appalling fact is that in the year 1921 alone nearly half a million pistols were manufactured in the United States.

Canada should maintain the most stringent laws against the carrying of concealed weapons, and there should be no lessening in law enforcement and in the infliction of adequate punishment upon all convicted law breakers. Criminals have no regard for the rights, property and lives of others; it is the height of folly to bestow undesired sympathy upon them.

British Columbia's fine new Fraser Canyon highway will be open for general use about July 1st.

CHILDREN CRY FOR

Fletcher's CASTORIA

MOTHER: Fletcher's Castoria is especially prepared to relieve infants in arms and children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom; and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep.

To avoid imitations, always look for the signature of *Dr. J. C. Fletcher*. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

Would Ban This Royal Sport

Campaign is Launched in England Against Fox Hunting. The broken collar-bone of the Prince of Wales and the ban on the movement of horses which caused a prevalence of the hoof and mouth disease, have brought about a campaign in England against fox hunting.

Two of the strongest arguments against the sports are its unpopularity in proportion to the number of raiding foxes killed and its cruelty to the fox.

BEAUTIFY IT WITH "DIAMOND DYES"

Just Dip in Tint or Boil to Dye

Each 15-cent package contains directions so simple any woman can tint soft, delicate shades of dye rich, permanent colors in lingerie, silks, ribbons, skirts, waists, dresses, coats, stockings, sweaters, draperies, coverings, hangings—everything!

Buy Diamond Dyes in color and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton or mixed goods.

Value of Field Crops
The aggregate value of all field crops in 1925 is \$1,160,861,000, as compared with \$986,325,900 in 1924. The value for 1925 is the largest since 1920, when the total was \$1,455,341,050 and the year 1925 is the first year since 1920 and the war period that the field crops of Canada have exceeded one billion dollars in value.

UTTERLY DISCOURAGED

This Was the Condition of a P. E. I. Woman Before Taking Dr. Williams' Pink Pills

"My illness began," says Mrs. M. J. Adams, R.R. No. 2, Alberton, P.E.I., when my husband went overseas and I was left with the care of a farm and stock, with no help but that of a young boy. My health broke down and for the first time in my life I became utterly discouraged. I felt that my appetite had no strength, and was ready to have a crying spell any moment of the day, as the work load piled up ahead of me. A friend happened to speak one day of the good Dr. Williams' Pink Pills had done her and tried me to try them. I had not energy enough, or perhaps confidence enough, to try them, but the work load piled up ahead of me. I had taken them, I knew they were helping me, and was anxious for more. I continued taking the pills for nearly six months and by that time I had fairly passed a crisis and was in my life, and regained my usual good health. To all overlooked, nerve-racked women, and there are a good many of them—I still say, and at all times, take Dr. Williams' Pink Pills and I know you will regain your energy."

There are many troubles due to weak watery blood which can be overcome by a fair use of Dr. Williams' Pink Pills. The whole mission of this medicine is to purify and enrich the blood, and when that is done all the varied symptoms of anaemia disappear, and good health returns. You can get Dr. Williams' Pink Pills from any druggist or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Through Service For Steamship Passengers

Canadian Pacific Railway Inaugurates Through Tourist Sleeping Car Service

For the convenience of western passengers enroute to the Old Country, the Canadian Pacific Railway have inaugurated a through tourist sleeping car service from Winnipeg to Saint John, N.B.

These cars will leave Winnipeg on "The Imperial" at 10:00 a.m. every Tuesday until April 30th, providing through service to the ship's side at Saint John.

This service will prove extremely popular with passengers from the prairie provinces, eliminating as it does, changing trains at Montreal.

It is said that all the mean age of his life are quickly brought before a drowning man. The same might be said of a candidate for office.

Lethbridge Northern

Irrigation District

Crop Survey For 1925 Shows a Remarkable Improvement

Preliminary estimates gathered in the crop survey of the Lethbridge Northern Irrigation District for 1925 show remarkable improvement, as compared with 1924, the first year of the operation of the project with the water on the land. The survey shows that the per acre value of soil products on irrigated lands was \$27.45, as compared with \$16.19 in the year 1924. There were under crop in the district 36,968 acres of irrigated land, as against 21,000 in 1924. The gross return (from the 21,000 acres) was \$554,679, while the gross returns in 1925 were \$1,013,003.

Contains Priceless Pictures

Famous Art Museum Built As Palace Threatens To Fall

The Uffizi Gallery, at Florence, Italy, which was built as a palace in 1580, and which now is the most famous art museum in the world, is threatened with collapse.

Tests of the structure show it to be alarmingly weakened. Within the galleries are priceless pictures, books and manuscripts. Engineers will be employed to strengthen the building. Raphael, Leonardo Da Vinci and Fra Bartolomeo are richly represented in the Uffizi collection.

Asthma Victim. The man or woman subject to asthma is indeed a victim. What can be more terrifying than to suddenly be bedeviled with paroxysms of choking which seem to fairly threaten the existence of life itself. From such a condition Dr. J. D. Kellogg's Asthma Remedy has brought many to completely restored health and happiness. It is known and priced in every section of this broad land.

"Columbus of the Air"

The flight of Commander Ramon Franco and his companions has been one of the outstanding achievements of aviation. Hailed as the "Columbus of the Air," Franco started on Jan. 23 his voyage from Paris, Spain, where Columbus set out on his first voyage of discovery in 1492, and finished their journey to Buenos Aires, Feb. 14. Commander Franco and his companions are the first aviators to span the South Atlantic entirely by air.

Why suffer from corns when they can be painlessly rooted out by using Holloway's Corn Remover.

The More you Merrier

Professors: I take great pleasure in giving you eighty-one in mathematics. Student: Make it a hundred and send yourself sir.

Cannot Export Electric Energy

Quebec Bill To Ban Export of Hydro Electric Power

Prohibition of the export of hydroelectric power produced in Quebec will become effective from the passing of a bill sponsored by Premier Le A. Taschereau in the legislature.

According to the terms of the bill all future contracts must contain a clause of a prohibitive nature. The ban is also to be written into existing contracts and to their renewal.

Completely Relieved After Short Treatment

Ontario Man Suffered With Kidney and Bladder Trouble

Mr. H. Waldriff Highly Recommends Dodd's Kidney Pills. Englehart, Ont.—(Special).—"I have used Dodd's Kidney Pills for kidney and bladder trouble. After using a few boxes I felt completely relieved. Was also bothered with a sore back and can honestly say I have not been bothered with any of these symptoms since. I highly recommend Dodd's Kidney Pills."

Mr. H. Waldriff, a well known resident of this place sends us this statement.

Dodd's Kidney Pills simply heal sick kidneys. They relieved Mr. Waldriff because his ailments were symptoms of kidney disease. When the kidneys get out of order they fail to strain the impurities out of the blood and general lassitude and weakness ensues. This condition is not only disagreeable but dangerous as well. The impurities in the blood are the seeds of disease. If they are not quickly removed, Rheumatism, Lumbago, Gravel, Dropsy, Diabetes, or Bright's Disease may result.

Obtained from druggists everywhere, or The Dodd's Medicine Co., Ltd., Toronto.

Prince Is Real Sport

The Prince of Wales doesn't keep the easy road round the fences any more. If there's a jump to take he's there to take it, which proves he's a real sport, instead of a make-believe. —Gaulth Mercury.

When a mother detects from the writhings and fretting of a child that worms are troubling it, she can procure a reliable remedy in Miller's Worm Powders which will expel all worms from the system. They may cause vomiting, but this need cause no anxiety, because it is but a manifestation of their thorough work. No worms can long exist where these Powders are used.

Use Armored Car

That an armored train is being built by the German railway company as a means of protection against possible assaults by strikers and for armed battle, is charged by the labor union.

Minard's Liniment used by physicians

Caution: If your medicine is of questionable quality, it is not Bayer. While it is well known that Aspirin means Bayer, nevertheless, to guard the public against imitations, the Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Fur Farming Industry In All Its Branches Is Now Firmly Established In Canada

Whatever doubts may have been on the mind during the first experimental years regarding the future of fur farming in Canada have long since been dispelled. The industry is now firmly established, has indeed branched out in various directions since the heyday of the fur seal undertaker. According to the published returns of statistics in 1924, the number of fur farms in operation in Canada totaled 1,880, of which 1,448 were devoted to raising foxes and 44 to other fur-bearing animals. Compared with 1923 the number of fur farms had increased by 223; for farms by 287, and other farms by 36, the bureau reported. In its latest report the federal minister of agriculture records a further decided increase in the fur raising and fur-bearing animals other than foxes. Nine ranches are rearing beavers; seven have taken up muskrats; nineteen, mink; thirty-two, mink; two, lynx; four, blue foxes; twelve, skunks; forty-one, raccoons; four, coyotes; sixty, muskrat and, at least, twenty, rabbits. He adds that the department is constantly receiving inquiries for information regarding the raising of various kinds of fur-bearing animals, with particular reference to muskrats, mink and chinchilla rabbits.

The value of these farms, including land, buildings, fixtures and animals aggregated \$10,946,420 in 1924, while muskrats and beaver farms, whose operators could not furnish exact statistics relating to their animals, situated in that year Canada had only 29 muskrat farms, two beaver and three raising muskrat and beaver, the expansion in other than fox farms during 1925 has been remarkable when the figures for 1921 and 1925 are compared. As regards the distribution of the farms in 1924, the figures show Prince Edward Island, 37 per cent.; Ontario, 16; Quebec, 12; New Brunswick, 9; Manitoba, 8; Alberta, 6; Nova Scotia, 6; British Columbia, 3; Saskatchewan, 2, and Yukon Territory, 1. At the close of that year four farms in Canada reported a total of 21,204 silver foxes, of which 21,264 were adults, valued at \$3,965,143, distributed thus: Prince Edward Island, 18,486; New Brunswick, 1,156; Ontario, 3,951; Quebec, 2,125; Nova Scotia, 2,307; Alberta, 1,745; Manitoba, 1,378; British Columbia, 586; Yukon Territory, 423, and Saskatchewan, 313. It is significant for the future of the industry that notwithstanding the increase in the number of farms and animals the recent sales in Montreal showed the prices of silver fox pelts of best quality to have advanced 25 per cent. The total sales of the Canadian Fur Live Skin Sale Company at the September auctions reached \$1,690,000.

Reverting to the minister's report, it shows Canada to be particularly strong in muskrats, almost rivaling Russia and even Siberia. Exceptionally large muskrat ranches exist near St. John's, Cape Breton, and at Hatteras, Saskatchewan. On the latter there are no fewer than two thousand breeding pairs. It is claimed for this country that the muskrat skins produced here are the best in the world. They range between three and a half and four million dollars per annum. Muskrats multiply and thrive well in captivity, hence there is plenty of opportunity for further development. Mink also thrive in captivity. The skins are in good demand, and some made self-reliant. Young mink find ready sale for breeding purposes. Chinchilla rabbits, although originated in France as late as twelve years ago, have already become extremely popular. They have been known in Canada for only two or three years, but the demand already exceeds the supply. However, large importations are being made, and as there seems no fear of their decrease in popularity, further development of this kind of breeding may be looked for. The little animals multiply rapidly and their skins are worth from two to six dollars apiece. Four litters a year averaging seven to eight each are the usual thing.

Says the minister's report: "Since it is no longer necessary to export to a small way, and as women are quite as successful as men in raising them, it is reasonable to suppose that

the breeding of chinchilla rabbits will become a factor of some moment in the fur industry."

Wintered Largest Herd In Canada

Brandon Man Has Over 600 Pure-Bred Cattle On His Farm

Continuing west is considered the best type on the North American continent, 400 pure-bred Aberdeen Angus cattle have been wintered in the Brandon district by J. D. McCreger. It is the largest herd ever wintered by this well-known breeder, and certainly, the largest number of cattle kept through the winter months in that district by a single owner.

The main herd is located at the Glenora farm, situated just south of the city, limited by the city, the spread covers ten different farm units. On each of these farms a separate herd of breeding cows is maintained, varying from 40 up to 250 head kept on the Glenora farm. Wintering conditions have been ideal this year, and fox that reason more than pasturing success is being met in successfully fitting the cattle.

Many of the cattle are headed for the various exhibition circuits this coming year, and many more animals will be added to the Glenora stock bars through their showings. There are few owners today who have earned the reputation across America that J. D. McCreger carries, and his brilliant wins at the Chicago International, Toronto Royal, Brandon and other leading fairs testify to the high quality of breeding operations carried on on such a large scale this winter.

Dry newspapers make good polishes for windows, mirrors and ranges.

Investigate Quality Of Wheat Wheat Milling and Baking Laboratory To be Established at Alberta University

Announcement is made that the establishment of complete equipment for a wheat milling and baking laboratory at the Alberta University, has been completed. The resources of the university laboratory will be devoted wholly to a research programme approved at a recent conference of chemists and agronomists from the three leading universities, called by the National Research Council. The most important item of this programme under way at present is the investigation of the quality of wheat produced in different districts, and of practical methods for its improvement.

To Erect New Canneries

Canning Industry in Northern British Columbia is Flourishing

Indications are that there will not be an idle cannery in the northern district of British Columbia, this year, and that a number of new canneries will be erected. In addition to those mentioned recently to be built at Queen Charlotte Island the erection of new canneries or re-opening or extension of existing ones, is planned at Captain's Cove, Prince Rupert, Mill Bay, Somerville and at the Kumeon cannery on the Ross River.

Wheat To Be Shipped West

Fifty million bushels of the 1925 prairie crop will move to Vancouver for reshipment during the present crop season, in the opinion of J. A. McCall, of the Vancouver harbor board. The total to date approximates 20,000,000 bushels.

Will Raise Muskies

The leasing of Muskies Lakes in Northern Alberta for the purpose of raising muskrats for the fur trade is a new industry that is under way.

United States Navy Plans For Great Aerial Dreadnaughts Bristling With Heavy Guns

Will Raise Muskies On Extensive Scale

Over 8,000 Acres at Swan Lake, B.C. Acquired For This Purpose

The largest muskrat farm in the west will be established at Swan Lake, forty miles northwest of Kamloops, B.C., according to J. D. McFarland, representative of the Muskrats Farm, Limited, of Vancouver. Late last fall his company acquired 8,125 acres of low-lying ground surrounding Swan Lake, also taking in the adjoining meadows and streams, already dotted with numerous muskrat and beaver houses, and which have given a fair living to a number of tyippers for some years.

Mr. McFarland, who has had years of experience with animal life north of the Peace River, is going in to the property early, and will make arrangements for the location of the necessary buildings, and will also take up the right-of-way for the twenty-eight miles of wire-net fencing, which will be proceeded with as soon as weather conditions permit.

Build Large Saw Mill

A Million Dollar Plant to be Erected at Vancouver

Construction of a new mill at Vancouver at a cost of more than \$1,000,000, to have a capacity of 1,250,000 feet of lumber and 200,000 shingles, will be commenced at once, O. G. Johnson, general manager of the Capilano Timber Company, announced. A railway connecting the company's timber limits in the Capilano Valley, with the new mill, and a large wharf already under construction.

United States navy plans for great dreadnaughts of the air, bristling with guns to ward off aeroplane attacks, under the action of the naval committee, providing for construction of two 6,000-ton cutters, long right airships in the \$100,000,000 naval expansion programme it recently reported in the house.

A glimpse of monetary that have been designed, given the committee by Rear-Admiral William Moffett, navy chief, shows seven of the new 50-arc machine guns, 18 thirty-caliber, and one of the few war one-pounder automatics, together with 7,700 rounds of ammunition for this weapon, as a part of the regular military load of each ship.

"The guns are so situated that an enemy aircraft cannot approach them any direction or angle without permitting a concentration of fire," Admiral Moffett says.

Instead of armour, the air dreadnaughts will rely on the non-inflammability of helium gas for protection against hostile aeroplanes.

Plans for a 6,000-cubic footer drawn by a United States commercial concern, the navy officer said, had been calculated to show the value of such a ship as an aerial transport. She would have a capacity of 150 men, with their individual fighting equipment, he explained, and could take that force 500 miles at a speed of 35 miles an hour and still retain a 50 per cent. fuel reserve.

"In this air vessel," the admiral continued, "infused with 10 per cent. helium and 10 per cent. combustible gas, 500 men, each with 45 pounds of equipment, can be carried from San Francisco to Hawaii in 80 hours, with a 30-hour reserve of fuel."

"Forty rigid of this capacity could move a division over this distance."

Settlers Coming From Britain

New Agreement Gives a Tremendous Stimulus to British Migration

As a result of the new immigration agreement between Canada and the United Kingdom, there has been a marked awakening of interest in this Dominion on the other side.

Cable advices show that hundreds of applications are being received in London from prospective settlers. Owing to the fact that the agreement applies only to farmers, farm labourers and domestics, a considerable number of the applications have to be rejected, but, nevertheless, it is certain that there will be a tremendous improvement in the volume of immigration this year.

The Ottawa department has had an inquiry made into statements made in the British House of Commons by Hon. C. L. Amery, secretary for the dominions, in which he quoted figures showing a very large percentage of rejections by the Canadian authorities.

The information received indicates that Mr. Amery's figures were not right.

The actual number of applications and rejections of families applying for admission into Canada as at January 31, 1926, were: Applications, 1,476; rejections, 394.

Final figures of the single men and women who have been rejected were not yet to hand.

Makes Good Windbreaks

Sunflowers Serve Good Purpose While Trees Are Growing

One of the benefits derived from the planting on the prairies is the protection afforded against drying winds in summer. As growth of conifers or willow enables the farmer to produce all the ordinary vegetables and small fruits. While one is waiting for trees to grow a good shelter can be obtained by planting Russian sunflowers. Three rows of these with plants about six inches apart, will check the winds of late summer when the effects of drought are most likely to be felt. The sunflowers need to be planted each year, but will serve a good purpose while a more permanent windbreak is coming on. Either as fodder or for the seeds, they furnish the sunflowers are worth the trouble taken in growing them.

Some men escape the traps of others only to be caught in their own.

SPECIAL FEATURES ON C.N.R. BROADCASTS

Western Canadian broadcasting stations in the Canadian National Railway, continue wide, radio chain includes programmes to be given during March which are worthy of special mention. It is the aim of the company to set a high standard for radio broadcasting by all its stations and with this end in view arrangements were made with some of the best musicians in the Dominion to broadcast from C.N.R. stations in the west during the month of March.

The lower pictures show the famous Hart House String Quartet, of Toronto, composed of Genoa de Kros, first violin; Harry Adaskin, second violin; Milton Blackstone, viola; Boris Hamberg, 'cello.

Inserted in the quartet group are Reginald Stewart, Canadian virtuoso pianist and conductor (left), of Toronto, and A. Leslie Gardie, baritone of Winnipeg (right). Mr. Stewart is one of the outstanding pianists of Canada.

C.N.R., the first Canadian National broadcasting station opened in the west, celebrates its second anniversary on March 21st for which date a special programme has been arranged, including several novelty features for which prizes will be given, and an address by W. D. Webb, vice-president in charge of radio for the system. The top picture shows the handsome studio of C.N.R., situated in the Fort Garry Hotel, and Mr. Webb at the left.

WORLD HAPPENINGS BRIEFLY TOLD

Cardinal Silli, cousin of Cardinal Gasparri, papal secretary of state, is dead.

The Spanish Government has tacitly agreed to support Poland in her claim for a permanent seat on the League of Nations Council.

Lithuania has asked the intervention of the League of Nations against Poland in connection with recent frontier incidents.

King Albert of Belgium will preside over the opening session of the International Rotary Clubs at Ostend, in June. Seven thousand Rotarians are expected to attend.

King Fuad has accepted an invitation from King George to visit London. He hopes to make the trip early in June after the opening of the Egyptian Parliament.

Pleaders have been barred from Madrid bullfights. The Society for the Prevention of Cruelty to Animals obtained this ruling from the mayor, who is a lover of horses.

Commander Franco, who brought fame and glory to his country by his epochal flight from Spain to Argentina, returned to Spain, with his flying companions, aboard a warplane.

The dirigible *Norway*, with which Raold Amundsen plans to journey to the North Pole, has carried out a successful eight-hour trial flight over Rome. The blimp, carrying thirty persons, circled over Rome several times.

Dr. Henry Spaulding, who claims to have discovered a method for curing tuberculosis in man and geese, is recuperating on the Riviera from an illness believed to have been due to breathing tubercle bacilli in his Geneva laboratory, says a dispatch.

The four Australian wheat pools have invited the Canadian wheat pools to send a delegation to Australia in August. J. M. McDonald, of Adelaide, South Australia, says that following the conference at St. Paul, Minn., he decided that the Canadian and Australian wheat pools could work together.

Advice For Young Mothers

Hamilton, Ont.—"Before the arrival of my little boy my health was very poor, my back hurt and my nerves were so upset I could not sleep. I grew very weak and miserable and suffered from morning sickness. Finally I saw Dr. Pierce's Favorite Prescription in the drug store where I trade, so I decided to try it and it did me a world of good. It relieved me of all distress in my back, built me up in strength and my nerves did not give me any more trouble. I got along fine the remainder of the time and I had a very strong, healthy baby. In addition to keeping a woman healthy and strong it relieves her of a certain mental strain, from which most women suffer during motherhood."—Mrs. Joseph Curto, 147 Bay St., North, (Pittsburg area). Write Dr. Pierce, Free Medical Hotel, Buffalo, N. Y., for free advice.

W. N. U. 1618

New Lieut.-Governor of B. C.

His Honor Robert Handolph Bruce, whose appointment as Lieutenant-Governor of British Columbia was announced while he was in England. He arrived in Canada on board the Canadian Pacific steamer *Montrose*, and proceeded at once to his home at Wildermere, B.C.

Swollen Joints, Quickly Limbered Up

Rub On Nerviline

You would be surprised at the wonderful action of "Nerviline" in just such cases. Being thin and not at all preparation, it is able to penetrate quickly, and down it sinks into the tissues, carrying its healing, soothing action wherever it goes. For stopping twinges or nerve pain, for easing a stiff joint, Nerviline is a complete success. Path, soreness, stiffness all melt before the magic power of this wonderful ointment. Nearly fifty years of success proves the merit of Nerviline, which is sold everywhere in large 25 cent bottles.

A Charming Mode For the Junior Miss Adapted to the girl of six to fourteen years of age, this smart cashmere frock for school wear reveals such new features as the raglan sleeve cut at the shoulder, and interesting collar. There is a slight fullness at the shoulders in front, and embroidered patch pockets proclaim their usefulness. The circular skirt is in two pieces, and attached to the bodice at the low waistline. The collar is convertible and may be worn turned back with the long ends cut off, or tied lower down. No. 1259 is in sizes 6, 10, 12, and 14 years. Size 10 years requires 3 1/2 yards 36-inch, or 2 1/2 yards 54-inch material. Price 20 cents.

Every woman's desire is to achieve that smart different appearance which draws favorable comment from the observing public. The designs illustrated in our new Fashion Book are originated in the heart of the style creator and will help you to assume that much desired air of individuality. Price of the book 10 cents the copy.

A Tonic of Rare Value SCOTT'S EMULSION OF PURE COD-LIVER OIL Rich in Vitamins Rebuilds Strength

ON THE AIR

An opinion from corporation counsel in Chicago holds that operation of radio loud speaker late at night is disorderly conduct.

The radio crystal receiver, set, which confuses reception mainly to the nearest broadcasting station, still is the predominant type used in the British Isles.

The newest and most powerful radio broadcasting station in Northern Alberta is being erected in King Edward Park, Edmonton, by the International Bible Students' Association.

Mayor Mitchell, of Windsor, is sponsoring a novel plan for the entertainment of patrons of the principal Windsor park this summer. He proposes for conducting the summer festival to have installed radio sets with amplifiers. The possibilities are endless and the cost low, the mayor says.

As pastor of the world's only aerial cathedral, which has neither length, breadth, or thickness, and is without wire or beam or rods of any kind, Rev. Paul Rader, of Chicago, numbers his congregation by the tens of thousands. Rader heads the National Radio Churches there and every Sunday he conducts day-long services over station WHYY, which is under contract for 10 hours for this purpose.

MOTHERS WHO HAVE USED BABY'S OWN TABLETS

Always Strongly Recommended
Them to Other Mothers

Once a mother has used Baby's Own Tablets for her little ones she will use nothing else—actual experts on the subject—because there is no other medicine to equal them for any of the minor ailments from which her little ones suffer. Having found the value of the Tablets in her own home, she is always anxious that other mothers should share her knowledge. That is why Mrs. Gordon White, North Noel Road, N.S., writes the following: "I have a baby seventeen months old and have given him nothing but Baby's Own Tablets ever since he was a week old. I know of no other medicine to equal them, and it is certainly a pleasure to recommend them to other mothers."

Baby's Own Tablets are a mild but thorough laxative that regulates the stomach and bowels; banish constipation and indigestion; break up colds and simple fevers and make the sick baby well and happy again. They are sold by medicine stores, or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Canada's Electric Power Development

Holds Second Position Among Nations
Of the World in Amount of
Energy Developed

Canada now leads the world in the generation of electric power, according to the latest statistics available, having a per capita generation of 878 k.w. hours. Switzerland comes next with 505 and United States third with 484. The total installation of electric power in Canada is 5,099,192-900 k.w. hours, which places Canada in second position among the nations of the world in regard to power developed.

Her Nerves Were "All Broken Up"

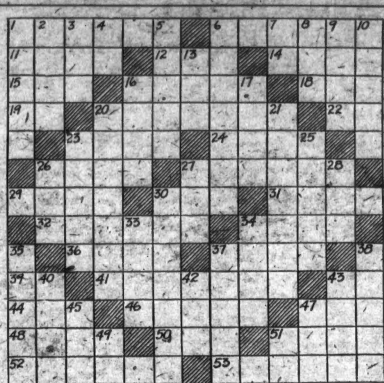

She Could Not Sleep
Mrs. David Ollinger, 27 Lyndhurst Ave., Hamilton, Ont., writes: "My nerves were all broken up and I could not sleep at night, and I would have to get up out of bed and keep myself in the love of God and the peace of God shall guard your hearts and your thoughts in Christ Jesus."

After Using a Box of
MILBURN'S
HEART
NERVE PILLS

I Began To Feel Much Better, and after using a few more boxes I could enjoy my rest as well as ever.

SUNDAY SCHOOL LESSON

MARCH 14

LAST WORDS OF JESUS WITH HIS DISCIPLES

Golden Text: I am the way, and the truth, and the life. John 14:6.
Lesson: John, Chapters 14 to 17.
Devotional Reading: Isaiah 40:1-5.

Explanations and Comments

Christ the Comforter, verse 1—"Let not your heart be troubled; believe in God; believe also in Me," were the beautiful words which the disciples heard in Christ's last talk with them. They were perplexed and anxious; their hearts were failing them as they approached the last crisis in Christ's earthly life. It was faith in the Father that kept Christ serene and peaceful so near life's end, and faith in the Father and the Son would uphold the disciples in that terrible time.

What Jesus said to His troubled disciples He says likewise to us in times of storm and stress. Here lies the secret of an untroubled heart and troubleless circumstances—faith in a living, loving God and Savior. Let not trouble have dominion over you. Keep yourselves in the love of God and the peace of God shall guard your hearts and your thoughts in Christ Jesus!

"Let not your heart be troubled; ye believe in God?" Forgive us, Master, when we grieve!—
Pardon the doubt wherein lacks all despair!
O, God is love, and God is every-where!—
(Stokely S. Fisher.)

Old Letter Discovered

Painted On Silk and Contains 13,000 Chinese Characters
With tragic history attached to it, an old letter has been presented to the Pope by the Vicar Apostolic of Seoul. The letter is painted on silk and contains 13,000 Chinese characters. It was written in 1301 to the Bishop of Peking suggesting plans to save the persecuted Church in Korea. It was intercepted by the police, and both writer and bearer were arrested and killed. Missionaries in China recover the letter about thirty years ago when the police archives were dispersed.

From the bachelor's viewpoint, marriage is a failure because he fails to marry.

In the straits of Florida the gulf stream is 22 miles wide.

Answer to Last Week's Puzzle

Change in Direction Of Japanese Current

Earthquake Three Years Ago Believed To Be Responsible

The Japanese Current, which is believed to have somewhat changed its course since an earthquake in Japan in 1923, is forcing his in Alaska to send new hawks, declared a herring fleet operator of Douglas, Alaska. "It is generally believed among Alaskans that the earthquake caused a change in the direction of the Japanese current. This whigter, for the first time since 1902, there has not been any snow. Days are sunny, with the temperature ranging around 40° and 50° degrees."

Colds Are Not Necessary Evils

Observance of One Fundamental Rule of Health Protects Against Them

Whether one catches cold easily is largely a question of physical condition. If the general vitality is low, resistance to disease is weak and at such a time a cold is easy to contract and difficult to check.

Such a state of health, with its attendant listlessness, biliousness, headaches and a general lack of vitality. Poisons from the waste matter that remains behind after improper, irregular bowel elimination are picked up by the blood and carried to every part of the body. They weaken your resistance to disease.

Constipation is frequently the cause of such a state of health, in this way have found that *Najol*, the internal lubricant makes bowel elimination easy and easy.

Najol softens the waste matter and permits thorough and regular elimination without overtaxing the intestinal muscles. *Najol* can be taken for any length of time with ill effects.

If you take cold easily, ask your druggist for *Najol* to-day—and remember, ask for the name "*Najol*" in red on both bottle and package.

URGES GRADING OF WHEAT ON PROTEIN CONTENT

Vancouver.—Suggestions for an improvement in the grading of wheat occupied the attention of the Western Canada Development and Unity League, Major K. A. Blatchford, of Edmonton, and James Robinson, member of the board of grain commission, are taking part in the discussion.

On the question of the grading of wheat, Mayor Blatchford described the present system as obsolete. The burden of his complaint was that the system now in use did not recognize the protein content. A change based on protein content would save the prairie farmer millions of dollars. He quoted prices paid at Minneapolis for wheat judged on this basis to show how such a system would be profitable here.

James Robinson, of the grain board, stated that the reason why Minneapolis paid big prices for wheat with high protein content was because the general run of protein content in United States grain was low. The Canadian system of grading was recognized as the best in the world and the advice from British buyers was to stay with it.

"Generally, interrupted Mayor Blatchford, 'the British buyers get the advantage of the protein content.'

"The protein system is not applicable to the export business," continued Mr. Robinson. There are in the neighborhood of 215 grades at the Winnipeg elevators today that vary in protein content. If we had to separate and show the protein content that would add to the number of grades. Immature wheat frequently grades very high in protein. I have seen samples where feed wheat contained more protein than other grades. To grade on the protein system you would have to make the same condition here as exists at Minneapolis.

Appeals To Privy Council

King of Swaziland Protests Against London Mountain S. Rhododendron.

London.—The King of Swaziland, Sobhuza II, was represented by counsel as an appellant before the privy council recently.

A striking figure in court was the King's attorney-general, whose heroic features contrasted strongly with his very young foreign wig. He is quite young, is a graduate of Oxford University, an LL.D., of London University and a member of the English Bar. Although he took part in the appeal argument, but left the argument to two eminent English King's counsel, he has been responsible for building up the whole case for King Sobhuza's appeal.

Briefly, the case is that large tracts of mountain rhododendron, including the burial place for ages of departed kings of Swaziland, have been illegally taken over, it is alleged, by the Swaziland corporation, a private corporation seeking to develop land in cattle and Swaziland resources respectively.

Reports Are Encouraging

Nearly 1,000 Families Already Accepted For Emigration Under New Scheme.

London.—Lieut.-Col. L. C. Amery, secretary of state for Dominion affairs, announced in the House of Commons that the results had been accepted for migration under the Canadian Government's three thousand family scheme, and he said that reports as to the working of the scheme and letters received from many settlers in the Dominion were very encouraging.

Will Not Reduce Navy

London.—W. C. Bridgeman, first lord of the admiralty, stated in the commons that the personnel of the Royal Navy will not be reduced this year, but will be maintained at the same numerical status as in 1925.

Germany Extends Credit To Russia. Berlin.—Representatives of German industry, with the support of the Federal Government, have concluded an agreement by which Germany is to supply 500,000 tons of wheat to Russia for the purchase of German goods.

W. N. U. 1615

Last Week In The Alberta Legislature

Minister of Agriculture Deals With the Farming Situation of the Province.

Edmonton.—The debate on the address in the Alberta Legislature concluded after a two weeks' discussion. No amendment was offered by the Opposition.

The concluding speaker was Hon. Geo. Hooley, minister of agriculture, who dealt with the agricultural and health situation throughout the province. The total value of all agricultural produce in 1925 was \$65,000,000. The wheat yield averaged 15 bushels, giving a total of 102,000,000 bushels, the second largest in the province's history.

All feed crops totalled in value \$148,000,000, and forage crops \$16,000,000.

Dairying did not make the same progress as in former years, but increase of prices kept the value up to the total realized being \$23,000,000. Poultry production totalled \$1,000,000, and production being \$5,000,000.

Beekeeping was becoming quite an industry in Southern Alberta, 115,000 lbs. being produced last year.

Bolder corn had made remarkable development. Alberta had last year shipped 15,000 horses and 200,000 cattle to the world's markets.

The report of the health department showed that much progress had been made in combating disease, particularly by the use of anti-toxins, and by travelling clinics and public health nurses. Municipal hospitals were now serving approximately 140,000 of the province's population.

877 mothers received allowances under the Mothers' Allowance Act last year, the total expended being \$281,007.00. Amendments would be introduced this year, the effect of which would be to help mothers where the husband was totally incapacitated, and where there were young children.

The government have already introduced thirty-two bills, a number of which have already received second reading.

Most of them are not important, but several deal with matters which will affect the province materially in the future.

A bill for the transfer to the province of its public lands has been introduced in the house. This includes the agreement entered into with the Dominion for the turning over of the natural resources of the province to provincial control. The present sub-subsidiary will be continued for three years for trial of an accounting. The house is practically unanimous with regard to this, and the whole matter is dependent on action which may be taken by the Dominion House. However, it is understood that the bill is agreed to in principle by all parties at Ottawa.

For Corporal Punishment

Advocates Spanking Machine to Put Fear in the Minds of Evil Doers. Winnipeg.—R. B. Graham, K.C., crown prosecutor, continued his advocacy of corporal punishment as a deterrent to crime, in an address before the Rotary Club here.

Physical pain uniformly inflicted and without the desire for revenge, he held to be the only real deterrent to crime. He termed jail sentences a failure and flogging revolting. He advocated the infliction of pain with out sentiment and with absolute uniformity by a means of a device similar to a "spanking machine."

He repeated a previous assertion that jails have ceased to operate as places of punishment and have developed into "warm winter quarters for the lazy and school of crime."

Fast Mail Service For Victoria. Victoria.—Starting on April 5, Victoria residents will be able to send letters or parcels to New York in approximately 50 hours, it was announced at the Victoria post office.

Arrangements have been made whereby it is possible for British Columbia residents to take advantage of the fast United States transcontinental air mail service.

Plan For Forest Fire Protection. Sydney, Australia.—With a view to preventing a possible recurrence of total and destructive bush fires, the New South Wales forestry commission has arranged a conference of forestry representatives to consider measures for protection of the Australian forests against fires.

GREAT PROGRESS IS SHOWN IN THE MINING INDUSTRY

Montreal.—Great progress was made in Canada's mineral industry in 1925, according to a report made by S. J. Cook, chief of the mining, metallurgical and chemical branch of the Dominion bureau of statistics at Ottawa, during an address at the opening session of the annual meeting of the Canadian Institute of Mining and Metallurgy here.

Reviewing developments of the year, Mr. Cook pointed out that the production of minerals reached a value of \$224,846,237, an advance of \$15,262,831 over the total for 1924 and well toward the record valuation of \$227,859,685 attained in 1920.

Upwards of 64,000 persons and employment in Canada's mining industry, wages and salaries totalling approximately \$89,000,000 annually, investment in Canadian mines amounts to approximately \$652,440,000.

Dr. J. A. Allan, professor of geology, University of Alberta, and Lewis Stockert, Calgary, were nominated for the presidency of the Canadian Institute of Mining and Metallurgy at the first day's session of the twenty-eighth annual general meeting of that body, which opened here.

The meeting was opened by registration, an address of welcome by Mayor Duquette, and the presidential address of T. J. Brown, deputy minister of mines and public works, Nova Scotia.

Claims Prohibition Law Was Violated

Publishing Washington's Beer Recipe. A Crime Says Texas Member.

Washington.—Action against the editor of The Washington Post for publication of George Washington's beer recipe was demanded of President Coolidge by Representative Blanton, Democrat, Texas. Publication of the recipe, the Texas representative charged on the floor of the house, constituted a violation of the prohibition law.

Prohibition officials were frankly puzzled over the printing of the recipe, but it was announced at the department of justice that no official cognizance of it had been taken.

Flu Epidemic in Russia. Moscow.—An epidemic of influenza is sweeping Russia, there being 37,000 registered cases in Moscow alone. All unemployed physicians and nurses have been summoned to the hospitals to relieve the overcrowded staffs.

One New Membership For League Council

Report Says Germany Alone Will Be Honored for the Present. London.—The latest developments surrounding the meeting of the League of Nations seem to indicate that Germany alone will be elected to a permanent seat on the league council, and that the question of the admission of Poland, Spain and Brazil for similar honors will be left to the meeting of the assembly in September.

Sir Austen Chamberlain, the British foreign secretary, is said to have received from his reported cabinet in favor of other new permanent memberships than Germany. He would favor, however, giving Spain a seat at the coming session, but this seems out of the question, as it is not believed Germany would agree to such a suggestion.

The correspondent of The Daily Express in Berlin says he hears that Germany has been assured she alone will be admitted to the league council and that other claims must be left for later consideration—perhaps at the September meeting.

Making Use Of Ice Bridge

Two Allen Runners Captured By Border Patrol at Niagara.

Niagara Falls, N.Y.—Allen runners are being to be using the ice bridge below the falls as an avenue to bring aliens into this country from Canada.

Three men crossed the bridge only to fall into the hands of the border patrol when they climbed a ladder from the bottom to the top of the gorge bank, a distance of 200 feet.

One man escaped and descended the ladder, re-crossing the ice jam to Canada as the border patrol men sent a volley of bullets after him. He is reported to have reached the Canadian side safely.

To Deport Aliens

Says Chicago Gangland Will Be Swept Clean in a Week.

Chicago.—Immigration officers and authorities renewed their drive on alien gunners here.

Willard Schoemaker, head of a special contingent of detectives assigned to the round up of deportable aliens, predicted that within another week gangland would be deserted.

Thieves Take Priceless Articles. New York.—Thieves who entered the Barton, Price and Willson, Inc. art shop in the Fifth Avenue district, broke several jars made in the fifth century, said to have been "priceless," and escaped with three treasures valued at approximately \$40,000.

WOULD SECURE BASIS OF UNION FOR FARM BODIES

Saskatoon.—A long step forward in the amalgamation negotiations between the Saskatchewan Grain Growers' Association and the Farmers' Union of Canada was taken at a conference in the board of trade offices here. It was decided that Manitoba and Alberta members of the U. F. of C. shall be members of the United Farmers of Western Canada, Saskatchewan section, until such time as provincial sections are formed in these provinces, when such sections shall have complete autonomy. Another resolution, passed unanimously, expressed the earnest desire of the amalgamation committees to work out a basis of union which shall commend itself to the good judgment of the great majority of members of the two organizations.

Attending the conference were C. H. Birrell, president of the Manitoba wheat-pool, who acted as chairman; J. R. Stenman, president of the Farmers' Union; W. M. Theasler, secretary of the Farmers' Union; L. O. Brault, Jette; C. H. Harris, A. Bayton, George E. Edwards, president of the S.G.A.; C. C. Stolkner, Mrs. A. W. Selby, Mrs. A. C. Hollis, Mrs. A. W. Selby, Mrs. H. Barr, solicitor for the S.G.A. and J. Harvey Hearn, solicitor for the Farmers' Union.

Germany Hears About War-Time Conditions

Secrets of Mutiny in Navy Revealed in Reichstag Speech.

Berlin.—Startling revelations with regard to the naval hunger strikes and the mutinous mood prevailing in the German navy in 1917 have just been made by Herr Dittman, the Socialist deputy, in a long speech delivered before the special committee appointed by the Reichstag to inquire into the causes of Germany's collapse in the war.

Herr Dittman states that the chief ground of the men's discontent was the so-called "mange-wurzel winter" of 1916-17 and in the following summer was the bad quality of the food supplied to the crews, and their indignation at the vasty superior rations supplied to their officers.

An incident that occurred on board the battleship Thumingen shows the state into which the fleet had deteriorated. The officers, while at mess one day, were suddenly drenched with water from a hose which was turned on them by an unknown hand, and, despite the closest investigation, the culprits remained undiscovered.

The picture of military Germany which has been given by Herr Dittman has come as a shock to many Germans who had been kept in ignorance of the seamy side of Germany's methods during the war.

Russia Liberates Prisoners. Moscow.—The central executive committee has issued a decree liberating all prisoners in the Far Eastern provinces formerly making up the Far Eastern Republic who are serving terms of a year or less. Sentences of more than a year in this region are commuted by one-third. This action was taken to make available all possible labor so as to strengthen the Russian Far East economically.

Conservative Leader Resigns. Saskatoon.—Dr. J. T. M. Anderson, M.L.A. for Saskatoon City and leader of the Conservative party in this province, announced that his resignation from the party leadership had been in the hands of the executive of the Saskatchewan Conservative Association "for months." He was quitting the leadership to enter business, he said.

Dominions May Be Represented. London.—The question of the possibility of the dominions being represented in the House of Lords when the latter is reformed was raised in the House of Lords by Baron Strathclype, who suggested that the Imperial conference in October should provide an opportunity to ascertain the opinions of the members of the dominions on this point.

Latest reports show that there are 37,669 women in the federal civil service in Washington.

Post Visits Winter Carnival

Bliss Carman, the famous Canadian poet, not only loves to sing the praises of the morning, the wide open space, the soft beautiful snow, but also loves to live the life he sings about so well. Recently he donned the apparel of the men of the west, and attired in comfortable moccasins and woolen socks tramped about to his heart's content in the vicinity of Banff. One day he took a sixteen-mile trip to one of the lakes in the clouds. The famous Canadian poet is here seen with the queen of the Banff Winter Carnival.

Everyone interested in the advancement of farming will welcome the opportunity to attend the Power Farming School, which is being brought here through the enterprise of Mr. J. H. Miller, local Ford dealer, in conjunction with Ford Motor Company of Canada and the Oliver Chilled Plow Company. The school will be held in Stony Plain and the public will be admitted without charge. A one day course of lectures delivered by S. C. Hinking, well known instructor of the Ford Motor Company of Canada, Limited, comprise the programme. These lectures will commence on **March 17th**, 10 a. m. and will go on until 5 o'clock.

Since the object of the school is to discuss ways and means of making farming in this district more profitable, the subjects selected are ones that have a direct bearing on the problem. Power Farming, Soils, Preparation of Seed Bed, and Conserving Soil Moisture are topics that will be thoroughly gone over. Good speakers have been secured to deliver the lectures and their talks will be illustrated by motion picture films. In this way it is hoped that the speaker's arguments will be made quite clear and easily understood. Matters that are peculiar to this particular locality will also be discussed and the best method of solving them sought out.

SPECIAL FEATURES ON C.N.R. BROADCASTS

WESTERN CANADIAN broadcasting stations in the Canadian National Railways continent-wide radio chain include programs to be given during March which are worthy of special mention. It is the aim of the company to set a high standard for radio broadcasting by all its stations and with this end in view arrangements were made with some of the best musicians in the Dominion to broadcast from C.N.R. stations in the west during the month of March.

The lower pictures show the famous Hart House String Quartet, of Toronto, composed of Genes de Kres, first violin; Harry Adas-

kin, second violin; Milton Blackstein, viola; Boris Hamburg, cello. This group will broadcast for one and a half hours from five Canadian National stations in the west on the following dates: CNRW, Regina, March 4th; CNRS, Saskatoon, March 6th; CNRE, Edmonton, March 10th; CNRC, Calgary, March 11th; CNRW, Winnipeg, March 17th.

Inset in the quartet group are Reginald Stewart, Canadian virtuoso pianist and conductor, (left), of Toronto, and A. Leslie Garalde, baritone, of Winnipeg (right). Mr. Stewart, who is one of the outstanding pianists of Canada,

will give a piano recital from CNRW, Winnipeg, on March 3rd, when he will be assisted by Mr. Garalde.

CNRW, the first Canadian National broadcasting station opened in the west, celebrates its second anniversary on March 31st, for which date a special program has been arranged, including several novelty features for which prizes will be given, and an address by W. D. Robb, vice-president in charge of radio for the system. The top picture shows the handsome studio of CNRW, situated in the Fort Garry Hotel, and Mr. Robb at the left.

19. Look over the prizes and
pick your choice.

It might as well be stated
right here that Wule's Hall
which will be mentioned of in
the future is one and the same
as Ducholke's Hall.

Pitler Bros auctioned off
a number of workhorses in
Stony on Saturday and all
brought good prices.

Mr D M Barker has sold
his farm to Mr Leeder and is
holding an Auction Sale next
Wednesday after which he
and his family will go to the
Coast to reside.

A good crowd attended the
Picture Show in Stony, Tues-
day evening. The next movie
will be held on March 23rd,
when the famous "The Iron
Horse" will be shown; this
being an extra long picture
and should not be missed.

Several serious cases of
Scarlet Fever have been re-
ported of in Wabamun and
were left gone too far think-
ing them measles. The resi-
dent of this district are asked
to guard against an outbreak
of that disease in this district.

Town of Stony Plain.

Notice of Proposed Local Improvements.

PUBLIC NOTICE is hereby given
pursuant to the provisions of the Town
Act that after the expiration of two
weeks from date of the last publica-
tion of this notice (unless the majority
of the owners of the lands to be af-
fected by each of the undermentioned
works representing at least one half
in value of the said lands petition the
Council against the same) the Municipal
Council of the Town of Stony Plain
intend to undertake the undermen-
tioned works as Local Improvements
and the whole or the cost of said
works to be paid for by way of special
frontage assessments upon all property
fronting or abutting on the said
works respectively.

The proposed improvements are the
construction of the following:

CONCRETE WALKS.

A concrete walk four feet in width

News Briefs.

The Norse people are hold-
ing a big celebration at Cam-
rose this year, July 3 to 6 h.

The district convention of
Rotarians, consisting all clubs
in Western Canada, will be
held at Banff, May 13, 14, 15.

A total of 53,002 Automob-
ile licenses were sold in the
Province of Alberta last year,
the revenue from these plates
netting the Government the
sum of \$954,441.

In the All-Canada butter
competition held recently at
Winnipeg, Alberta butter ex-
hibits won a total of 20 of the
60 prizes offered. You tell
em Alberta, You got the
butter.

Probably the earliest record
of Garden planting in the his-
tory of the province was re-
corded last week at Magnath,
when several varieties of gar-
den vegetables were seeded.
The weather has been so
spring like that work has been
in progress on the land at
several points in the southern
part of the province.

The plan to reduce the num-
ber of constituencies in the
province, has finally been ab-
andoned by the Alberta Legis-
lature and the number of
ridings will remain at 60.
However, the boundaries of
practically all of them will be
changed, while several con-
stituencies will be eliminated
and new ones created. It is
proposed to eliminate Stony
Plain and add its territory to
Leduc and Lac Ste Anne,
while a new constituency to
replace it would be formed in
the Ruthenian districts to the
north-west.

Here and There

Use Mills, driving Brewster's fam-
ous Russian wolf hounds, won the
Stromberg Trophy in the 60-m.
Dog Derby race at the Banff Win-
ter Carnival and soon after left to
enter the American Dog Derby race,
which were held at Ashton, Idaho.

Five thousand settlers are to
set for Canada this year under the La-
Salle Settlement scheme, according to
Major John Barnett, Chairman of
the Soldier Settlement Board at
Winnipeg. The majority will come
from Great Britain, and will be pre-
pared to take root in Canadian soil.
Major Barnett said.

Word has been received at Cana-
dian Pacific headquarters of the
death of James McGown, Superin-
tendent Engineer of British Colum-
bia coast service. Mr. McGown was
born in 1863 and entered the service
of the Canadian Pacific steamships
in 1889 as fourth engineer. The mas-
ter weights six hundred and eighty-
five pounds and is large in propor-
tion.

An indication that big fish are
migrating from the waters around
Florida and Mexico to New Zealand
is forecast in a special cable received
recently. Zane Grey, the famous
American writer, who is in New Zea-
land at present, caught the world's
record swordfish recently. The mas-
ter weights six hundred and eighty-
five pounds and is large in propor-
tion.

Stricken sick suddenly, Mrs.
Charles Burns, wife of the president
of the Carling Brewing and Malting
Company, London, Ont. telephoned
to Mrs. Leon, her sister-in-law, wife
of the vice-president of the company,
who was in Montreal with her hus-
band. Mr. and Mrs. Leon left Mont-
real in a special Canadian Pacific
train, which made the run to Toronto
in six hours and forty-three minutes,
just in time to make the connection
with the regular train which leaves
Toronto for London at 6:45 a.m.

Tom, Dick, Jerry and Harry, four
born fighters from the fighting
county of Yorkshires, England, ar-
rived in Montreal recently on their
way to W. W. Graves, United States
Supreme Court Justice at Jefferson
City, Mo. They are not going to the
judge to be sentenced for in-
fracture of the peace, but simply
because His Honor, being from and
in Missouri, wants to be shown
whether it is true, as alleged, that
the best Indian game cocks can only
be got from Yorkshire.

Dogs, pigeons, canaries, rabbits,
pedigree fowl, wild birds, gold fish,
finnets, ducks, monkeys, caviar, bet-
ter known as guinea pigs, and parrots
were among the livestock carried
from Europe and the British Isles
to this country and the United
States by the foreign department of
the Dominion Express Company dur-
ing 1925, according to the yearly
statement recently issued by the
company. In the statement was in-
cluded a total of about 1,000 racing
pigeons.

Under the auspices of the St. Jean
Baptiste Society, Montreal branch, a
special train has been chartered from
the Canadian Pacific Railway to
carry a party of some five hundred
members of the society to Chicago
to take part in the Eucharistic Con-
gress to be held in that city in June.
During congress week will be cele-
brated St. Jean Baptiste Day, on
June 29, under the auspices of the
Fraternal Association of French-
Canadian of Illinois, which will con-
clude with a banquet at which 1,500
guests will be present.
